SEAMUS POWER

BUTTERFIELD BERMUDA CHAMPIONSHIP

Q. Now that you know the situation, how do you feel about the pending playoff?

SEAMUS POWER: Yeah, I mean, it was such an unusual day kind of waiting to find out what exactly was going to happen. It's a weird feeling to just -- I've had a playoff before but obviously not overnight kind of thing. Looking forward to it. It's going to be a different experience. Hopefully we're able to get out there, most importantly.

So yeah, it's an unbelievable opportunity. Looking for win No. 3 and you've got a one-on-one battle for it, so looking forward to get out there and see what happens.

Q. If I recall correctly, you won that playoff.

SEAMUS POWER: I did.

Q. It was quite a few holes, wasn't it?

SEAMUS POWER: It was six holes, yeah.

Q. Was it ISCO, Barbasol?

SEAMUS POWER: Yeah, yeah, it was back in 2021. So that was obviously a totally different experience where came off the course, waiting for the last couple groups and went straight out. So this is different, you're going to Saturday to Monday. It's unusual. I can't imagine it's happened too many times on Tour, but really looking forward to it. Fantastic opportunity and go out there with nothing to lose and just do my best.

Q. How did you spend the day today?

SEAMUS POWER: Watched some sports. I went up to a friend's here, went up to like a local golf course and watched some of the Liverpool game this morning, and then caught up with some more friends in town and watched some of the NFL game.

It was weird, even this morning setting an alarm obviously waiting to see what was going to happen, and then getting another update. Then you're not quite sure what to do, trying to conserve energy, mentally prepare for 18 holes tomorrow.

So this is obviously a different kind of -- different experience. I'm going to do the same thing, get some good rest tonight, get some good preparation in the morning and give my best.

Q. Hearing the playoff hole's possibly the signature hole, No. 16, that would probably make you happy because I know you've got a pretty good record there, right?

SEAMUS POWER: Yeah, the year I won I birdied -- I had three 2s, so that's always cool. That's going to be -- if that is the case, that will be pretty special. It's an amazing setting for a hole, one of the best settings I've ever seen anywhere in the world. That would be pretty special and obviously that would be an amazing place to win a golf tournament. Looking forward to getting out there.

Q. How excited are you for this opportunity?

SEAMUS POWER: Yeah, it's huge. For me like the fall has obviously been great so far and that was before this week, so it's fantastic. Really excited. Game feels like in a good spot. Obviously this is going to be a shorter experience so you need a little bit of a look and stuff, but looking forward to going out there for as many holes as is needed and hitting some good shots and some good putts.

Q. How disruptive is it for you in this situation? How does that affect you going forward?

SEAMUS POWER: It's just unusual because we're such creatures of routine and habit. I think golfers, you just have your daily stuff.

But I feel like this is one of those good problems to have where if I was sitting around waiting, I had missed a qualifier, I was down in 50th position waiting to find some answers would be probably must more frustrating. So no matter what happens it's good news. I think it's one of those things that I just feel like I won't have anything to lose tomorrow so that makes it fun. That's a most enjoyable way to play golf. So we'll give our best and see what happens.

Q. We know you've got a little fan base here. Are you getting some support from them, texts?

SEAMUS POWER: Yeah, absolutely. They're almost wondering if they're going to be allowed out there tomorrow so I have to find out for them pretty soon. Yeah, great friends here so it's going to be fantastic and hopefully they can come share it with me tomorrow.
